

Why Gender generator?

There are several reasons:

- You no longer have to think about your gender while you are being treated in a mental hospital
- You will have more reasons to sue anyone who calls you something that is not your gender
- You no longer have to come up with new gender names because you already have too low an IQ for that. We'll do it all for you.

Project monetization

Several options for making a profit

- Selling identities and geo-locations of registered people for faster summoning of ambulances from the psychiatric hospital
- Schizophrenia+ subscription, which allows you to get free medical care after generating gender
- Subscription to remove the gender generation limit per day

WHEN IT'S PRIDE MONTH
